- II. Khrushchev has background in agricultural affairs.
- A. Had been First Secretary of the Ukrainian Communist Party and responsible for agricultural matters in that important farming area 1938 to late 1949.
- B. In 1941 had proposed and actually put into practice in the Moscow area (where he was First Secretary of the region's party apparatus) policy of amalgamating collective farms into farm cities (agrorods). This was called off (would have meant mass resettlement of peasants) and Khrushchev had less to say in public on agriculture until he made the report to the Central Committee on agricultural shortcomings on 3 September which led to the new agricultural decree.
